| <p>1. Active Whitening Cream for Hands and Body</p> |  | <p>This cream has been developed for skin with freckles, discolourations, hormonal disorders and spots. It leaves the skin looking both radiant and whiter. It combats pigmented spots and prevents creation of new discolourations.</p> <p><u>Contains biologically active substances such as</u></p> <ul style="list-style-type: none"> - Acti-White™ - vitamin C, - Cucumber - Morus Nigra (Mulberry) Extract | <p>Complex Acti-White® - lighten the epidermis and decrease the melanin synthesis, pigmentation and tyrosinase activity. It prevents creation of new discolorations and combats pigment changes. Its action is similar to arbutin, kojic acid (direct tyrosinase inhibitors) or vitamin C derivatives (anti-oxidant)</p> <p>Vitamin C-(in stable form) is a key component of collagen and elastin synthesis in our bodies and is universally antioxidant. It helps reduce age spots and darker pigmentation from sun exposure, by inhibiting melanin production. It also helps to provide better color and skin tone.</p> |
| <p>2. Intensive Cream For face SPF 15</p> |  | <p>Immediate complexion radiance effect. For skin with uneven pigmentation – freckles, discolorations due to overexposure to sun, hormonal disorders and connected with ageing process. This cream gives immediate complexion lightening, stops skin darkening, limits the over pigmentation process. Applied regularly, decreases the skin discoloration.</p> <p><u>Contains biologically active substances such as</u></p> <ul style="list-style-type: none"> - Lumisphere™ - Cucumber - Morus Nigra (Mulberry) Extract - vitamin C <p>This cream provides delicate coverage to the skin, smoothes, moisturizes and gives broad protection from harmful external factors.</p> | <p>Cucumber – holds huge amount of vitamins like vitamin B2, vitamin C, vitamin E, as well as rich source of amino acids and tartaric acids. These components support lightening activity and may have anti-inflammatory and soothing properties.</p> <p>Morus Nigra (Mulberry) Extracts- is used as a natural skin lightener. It is the most potent of natural tyrosinase inhibitors and is also the most gentle. It soothes skin and has strong anti-oxidant properties.</p> |
