

## PEPTIDE LIFT

THE SYNERGY OF NATURE AND TECHNOLOGY  
TO FIGHT SKIN AGING PROCESS

ARGIRELINE®  
1st anti-expression wrinkles

LIFTING  
WITHOUT SURGICAL TREATMENT

THE FUTURE IN SKIN REJUVENATION

ALTERNATIVE TO BOTOX!

## PEPTIDE LIFT

### AN INNOVATIVE, ADVANCED COSMETIC LINE CREATED TO FIGHT THE EFFECTS OF SKIN AGING

Innovatory formulation contains the worldwide patent active ingredient Hexapeptide-8-Argireline® - the cosmetic alternative to botox. The invention of this unique anti-wrinkle peptide is one of the newest discoveries in cosmetology. It is a safer, cheaper and milder alternative to Botulinum Toxin, topically targeting the same wrinkle formation mechanism in a very different way. Composed of natural aminoacids is designed to relax muscle and thus fight against expression wrinkles. It produces an integral skin recovery, effectively reduces the depth of the lines, especially in the forehead and around the eyes, and prevents the formation of new ones. Argireline® has been shown in significant testing to be effective against development of skin wrinkling. Its application allows to achieve an effect similar to injection of Botulinum Toxin but in noninvasive way. A significant improvement is visible after 2 weeks of daily use.

The first peptide for expression wrinkles

Safer, milder and cheaper  
alternative to Botulinum Toxin

Visible effects after 15 days of daily use

#### ADDITIONAL ACTIVE INGREDIENTS USED IN PEPTIDE LIFT COSMETICS:

- **DEEPLY HYDRATING** – Hyaluronic acid and Sodium PCA widely existing in skin and other tissues are the best moisturizers that help to keep skin hydrated. Production of hyaluronic acid decreases with age which contributes to the loss of moisture leaving skin thinner and less supple. Properly hydrating skin appears soft, smoothed, younger, more healthy and luminous, skin aging process is slowed down.
- **NOURISHING** – natural ceramides, Omega 3 and Omega 6 fatty acids that restore the lipid barrier of the stratum corneum of dry and fissured skin and provide a well balanced moisture content. They improve skin structure by restoration the intercellular cement, help reduce wrinkles, restore firmness and elasticity to the skin.
- **REGENERATING** – argan oil, vitamin „E“, PhytoCellTec™ Argan stem cells that protect skin stem cells, combat the signs of ageing, promote rejuvenation of tissue, skin tightness, natural contour and shape of the face. PhytoCellTec Argan is first breakthrough active cosmetic ingredient which revives stem cells in skin. Revitalizes and protects, improves its livens up thereby enhances the potential of skin regeneration and brings back its early life functions. Increases firmness and density of the skin, reduces wrinkles, tightens and tones. The stem cells stimulate the production of collagen, restore DNA, reduce wrinkles and recover the skin's firmness and youth.

FOR WOMEN EXPECTING THE SPECTACULAR EFFECT

## PEPTIDE LIFT

### MULTIDIRECTIONAL REJUVENATING TREATMENT OF THE NEW GENERATION FIT FOR YOURSELF

#### USE ONE OR SOME PRODUCTS OF THE LINE

##### 1. Wrinkle Reducer, Moisturizing Formula, 50 ml

Exceptionally effective cream for mature skin smoothing out fine lines and wrinkles. Rejuvenating effect of the cream is ensured by Hexapeptide-8-Argireline® - an unique anti-wrinkle peptide, very effective against the development of skin wrinkling. This anti-aging cream, enriched with deeply hydrating ingredients – Hyaluronic acid and Natural Moisturizing Factor, leaves skin smooth, soft, supple, young, radiant and more luminous.

##### 2. Wrinkle Reducer, Nourishing Formula, 50 ml

A highly effective nourishing formula to reduce wrinkles, rejuvenate, repair dry, damaged and aging skin types. Contains Hexapeptide-8-Argireline® - a noninvasive alternative to Botox injections and cosmetic surgery. Enriched with plant ceramides and Omega 3 and Omega 6 fatty acids to improve skin structure by restoration the intercellular cement and reinforcing the skin's barrier. Nourishing Cream restores firmness, elasticity, a more youthful and healthy appearance to the skin.

##### 3. Wrinkle Reducer, Regenerating Formula, 50 ml

An unique, advanced regenerating formula designed for mature complexion. Based on Hexapeptide-8-Argireline® rejuvenates the skin by reducing the depth of wrinkles and effectively simulates the effect of Botox injections. Composed of natural aminoacids produces an integral skin recovery. The addition of argan oil, vitamin E and PhytoCellTec™ Argan stem cells enhances its anti-aging properties. The result of daily use is a visible improvement in the appearance of the skin which regains youthful look, firmness and smoothness.

##### 4. Wrinkle Reducer Highly Concentrated Smoothing Serum, 15 ml

Innovative, intensively smoothing Facial Serum is a combination of active ingredients reducing wrinkles and stimulating collagen production for younger looking skin. Contains one of the most effective anti aging ingredients - Hexapeptide-8-Argireline® to help smooth facial lines and provide their long lasting decrease. Enriched with Coenzyme Q10 - an excellent antioxidant, significantly slows cellular aging. Facial Serum is a perfect complement to other cosmetic treatments used in Peptide Line, significantly increasing their efficiency. Leaves skin silky smooth, firmed, visibly younger looking.

##### 5. Wrinkle Reducer - Anti Aging Eye Contour Concentrate in Capsules

A highly effective treatment serum formulated to smooth the delicate skin of the eye contour. The serum inside the capsules contains Hexapeptide-8-Argireline® which reduces depth of expression wrinkles and effectively simulates the effect of Botox injection. It has been carefully formulated to enable the active ingredients to penetrate the lipid barrier and thus enhance their availability in the skin. Anti aging concentrate helps to improve hydration and provides a pleasant silky texture to the skin.

THAT'S MORE THAN SKIN CARE

IT IS A WAY TO MAINTAIN A YOUTHFUL APPEARANCE
