

White Skin

Skin Whitening Program
NEW CONCEPT IN WHITENING SKIN!

White Skin series has been developed for skin with freckles, discolorations and spots. Skin pigmentation can go along with ageing, hormonal disorders or damaging UV rays activity.

The whitening formula created by AVA - Cosmetic Laboratory contains new generation of biologically active substances which reduce pigments of melanin and inhibit activity of tyrosinase.

The Skin Whitening Program reduces appearance of dark spots, gives fresh radiance, nourishes and smoothes skin.

White Skin

Active Substances:

- **ActiWhite®** - significant reduction of skin pigmentation
- **Lumisphere®** - visual skin whitening, reduces the melanin level in the skin
- **Cucumber extract** - supporting lightening activity
- **Mulberry extract** - rich in rutin and vitamin C - reduces hyper pigmentation
- **Vitamin C** - stimulates the synthesis of collagen in the skin, smoothes

INTENSIVE CREAM FOR FACE SPF 15
 Cream gives immediate complexion lightening, evens out skin darkening and limits the overpigmentation process. Gives broad protection from harmful external factors. It contains UVA and UVB filters.

INTENSIVE WHITENING MASK
 Intensive mask-serum contains whitening complex of synergistic compounds which limit melanin synthesis. Mask improves general skin appearance, enhances skin freshness, moisturizes and makes the skin smoother and more supple.

WHITENING DISCOLOURATION LOTION
 Freshens and softens the epidermis. It visibly makes the discolorations less apparent. Lotion cleans the skin before applying the whitening cream to obtain maximum benefit.

ACTIVE WHITENING DISCOLOURATION POINT CREAM - IMMEDIATE RADIATING EFFECT
 This cream applied on dark spots makes them smaller and less intensive whilst correcting overall skin colouration and limiting skin darkening.

ACTIVE WHITENING CREAM FOR HANDS AND BODY
 This cream contains two synergistic substances which combat pigmented spots and prevent creation of new discolorations. It leaves the skin looking both radiant and whiter.
